Profile

An Informatics Engineering graduate from Batam State Polytechnic, with almost 3 years experience in web-based application development using tools such as HTML, CSS, PHP, JavaScript, SQL, and OutSystems low-code platform. Additionally, I have experience working as a Software Quality Assurance specialist for Pega platform-based applications, manually executing test cases and collaborating with developers to resolve bugs and ensure high-quality deliverables.

Experience

OutSystems Developer at Accenture   Feb 2025 – Present

- Develop and maintain applications using OutSystems
- Collaborate with business analysts to translate requirements into scalable solutions
- Maintain system performance and optimize workflows

Pega Quality Assurance at Accenture   Jan 2024 – Aug 2024

- Prepared data and test cases for testing
- Executed test cases
- Collaborated with developers to resolve bugs
- Performed unit tests, sanity tests, system integration tests (SIT), and end-to-end tests
- Reported and documented defects using JIRA

Junior Web Developer at Batam State Polytechnic   Aug 2022 - Jul 2023

- Developed a web-based system that could assist the student achievement data collection and administration process
- Designed a mobile-based student information system's user interface and implemented the front end using the Flutter framework.

Education

- **Bachelor's Degree - Information Systems**   2024 – Present
  Universitas Terbuka

- **Associate's Degree - Informatics Engineering**   2020 - 2023
  Politeknik Negeri Batam
